FOUNDER'S MESSAGE

It fills me with immense pride, joy and satisfaction to write this message on behalf of our entire **LECOL** family. This journey began 45 years ago with Lifting and Material Handling Equipment being our core business. Almost half a century later our product and service offering includes Air-conditioning, Refrigeration, Industrial Supplies, the Marine Industry, Communication & Technology as well as the Travel & Hospitality Industry.

The wealth of experience we have gained, coupled with the unique strengths of our dedicated team, has been central to our success over the years to meet the various interests of our clients. We pride ourselves in being a window to the world in our fields of expertise where we bring the world to Kenya rather than burden Kenyans to travel the world to experience a quality offering at incredible price points; **“Buy Kenyan Build Kenya”** remains at the core of our growth strategy.

Our most prized possession, our human resource, consists amongst others, a qualified and well trained technical back up team, who dedicate their waking hours to deliver a supreme service with a smile. They can cater for any design, installation and commissioning of projects and take pride in working with reputable consultants. This team not only embraces the rapidly evolving technological future but through quality workmanship and competence it assures customers' satisfaction.

As we gear up to mark our Golden Jubilee, I take this opportunity to, not only thank all our Partners, Former and Current Staff, Customers and Suppliers for their unwavering support and contribution to the growth of **LECOL**, but also welcome you to our state of the art facility in Mombasa, Kenya's gateway City to the World.

DR. ROSHAN J. MERALI

PhD (Business Management)

ABOUT US

LECOL is a family owned and operated enterprise, proudly staffed by over a hundred women and men. Our head-office is located on Mbaraki Road in Mombasa, with extensive market penetration through branch offices, partners and dealers across East Africa. **LECOL** is amongst the well-established and resilient companies on the Kenyan Coast, incorporated in 1973 but with its parent company established since 1936.

Our unique offering of quality products with exceptional service, all under one roof, ensures maximum customer satisfaction. As distributors of several international brands, many of them exclusive in Kenya, a complete lineup of equipment as well as spare parts, accessories and complementary products in the HVAC-R (Heating, Ventilation, Air-Conditioning and Refrigeration) Marine, ICT and Industrial products are available ex-stock.

LECOL has as at its nucleus, a highly trained, qualified and experienced technical team of over sixty engineers and technicians, and growing. Our capacity to provide our customers with technical support from inception through design, installation and commissioning, regardless of size or value is probably our over-arching strength. With realistic and deliverable commitments to customers and our service level agreements, we are equally proud of our service and emergency response teams.

Whilst striving for excellence **LECOL** is committed to playing its part in conserving the environment. Green products and environmental best-practices are of paramount importance and innovation in this space is a priority.

Our mantra - **“Do Our Best”** has consistently resulted in unparalleled customer satisfaction, and in many cases surpassed it. Suffice it to say that our clients, suppliers and partners are first our friends and family – commercial priorities follow thereafter.

MISSION STATEMENT

To be measured primarily by Customer Satisfaction whilst striving to be the preferred supplier and service provider in HVAC-R (Heating, Ventilation, Air-conditioning and Refrigeration), Marine, Industrial & PPE Supplies and the ICT sector.
